

GUNAL D

AGENTIC AI ENGINEER

Vellore, Tamil Nadu, India | +91-8111044810 | gunalofficial2000@gmail.com
[gunal-official.github.io](https://github.com/gunal-official) | linkedin.com/in/gunal-d | github.com/gunal-official

PROFESSIONAL SUMMARY

Aspiring Agentic AI Engineer with foundational, hands-on experience building LLM-powered applications, Retrieval-Augmented Generation (RAG) pipelines, and end-to-end machine learning solutions using Python, LangChain, TensorFlow, and Scikit-Learn. Quick learner with exposure to cloud AI concepts across AWS, Google Cloud, and Azure, and a strong foundation in software engineering from prior full-stack development experience. Eager to contribute to building scalable, production-ready agentic AI systems.

CORE SKILLS

Programming Languages: Python, SQL

Machine Learning: Regression, Classification, Clustering, Predictive Modeling, Statistical Modeling, Model Validation, Model Deployment

Deep Learning & GenAI: TensorFlow, Keras, LangChain, LangGraph, Generative AI, LLM Workflows

Libraries & Tools: Pandas, NumPy, Scikit-Learn, Matplotlib, Seaborn, Plotly, SciPy, Flask, FastAPI, Streamlit, MLflow, Docker, Git/GitHub

Data & Analysis: Data Cleaning, Data Extraction, Exploratory Data Analysis (EDA), Feature Engineering, Feature Selection, Data Visualization

Soft Skills: Problem-Solving, Analytical Thinking, Data Storytelling, Team Collaboration, Communication

PROFESSIONAL EXPERIENCE

Web Developer

Oct 2021 – Sep 2023

Pixselo Technologies Private Limited | Bangalore, Karnataka, India

- Built and maintained responsive, scalable web applications, strengthening core software engineering skills directly applicable to production AI system design.
- Optimized application performance and SEO using Google PageSpeed Insights and Lighthouse, improving load-time metrics and user experience.
- Deployed and maintained applications across cPanel, GoDaddy, and Hostinger production environments, gaining practical experience with deployment pipelines and hosting infrastructure.
- Collaborated with cross-functional teams on UI/UX design and technical planning, improving project delivery efficiency.

PROJECTS

AI-Powered Chat with Multiple PDFs (Agentic RAG Application)

Jul 2025 – Aug 2025

Python, LangChain, LLM, FAISS, Streamlit | GitHub: <https://github.com/gunal-official/AI-powered-Chat-with-Multiple-PDFs.git>

- Developed a RAG-based conversational AI agent enabling users to query and extract information across multiple PDF documents simultaneously.
- Built a document processing pipeline using text chunking, embedding generation, and FAISS vector indexing for fast, context-aware semantic search.
- Implemented an agentic conversational workflow with LangChain to orchestrate retrieval, context injection, and LLM-based response generation.
- Designed an interactive Streamlit interface for real-time, context-grounded conversational answers from uploaded PDFs.

CERTIFICATIONS

- IBM — Data Science Professional Certificate (12-course series):
Python, SQL, Statistics, Machine Learning, and Data Visualization Oct 2024 – Jul 2026
- IBM — Generative AI for Data Scientists Specialization (3-course series):
Generative AI concepts, LLM workflows, and AI-driven applications Oct 2024 – Jul 2026
- AWS — Fundamentals of Machine Learning and Artificial Intelligence Jun 2025

EDUCATION

Bachelor of Computer Science and Engineering — JAIN (Deemed-to-be University)

Oct 2023 – Jul 2026

CGPA: 7.00 / 10.00

Diploma in Computer Science and Engineering — Guru Raagavindra Polytechnic College

Oct 2017 – Jul 2019

Percentage: 79%
